Objective

I am a focused graduate with a strong background in Surveying and Geoinformatics Engineering. I seek a competitive environment where I can use my problem-solving skills to help achieve the desired goals. My hope is to get knowledge and experience in order to benefit myself on the long term.

Education

2014 – 2019 **University of Lagos, Lagos Nigeria | BSc, Surveying and Geoinformatics Engineering.**

(First Class Honours)

- General Secretary, Nigerian Institution of Surveying and Geoinformatics Students (NISGS), Unilag Students Chapter (2018/2019).
- Welfare Secretary, Nigerian Institution of Surveying and Geoinformatics Students (NISGS), Unilag Students Chapter (2016/2017).

2010 – 2013 **Grace High School, Gbagada, Lagos Nigeria**

- Deputy Head Girl (2013).
- Assistant Hostel Prefect (2013).

Academic thesis

Anifowoshe O.E. (2019) *Groundwater Potential Zone Mapping of Oyo State (Akinyele Laniba LGA) Nigeria, using Geospatial Multicriterial analysis and Hydrogeophysics.*

Experience

Sep 2020 – Date **Pisces Offshore Nig. Limited (Lagos, Nigeria)**
Graduate Intern

- I carried out calibration of offshore survey equipment.
- I participated in survey project planning.
- I participated in offshore data processing, interpretation and reporting.

Jan – Aug 2020 **Hirst Resources Limited (Lagos, Nigeria)**
Graduate Intern and Geomatics Engineer

- I mapped out areas for installation of street lights and solar farms.
- I worked with the team to collect survey and positioning data on sites.
- I produced maps and site reports.

June – Dec 2018 **Pisces Offshore Nig. Limited (Lagos, Nigeria)**
Undergraduate Intern

- I demonstrated advanced skills in operating some offshore equipment.
- I acquired the requisite knowledge needed in mobilizing offshore equipment for survey projects.
- I was in charge of Health and Safety for the team.

Extracurricular Activities

- **Faculty of Engineering (University of Lagos), Faculty Week 2019**

I was part of the team responsible for planning, sourcing funds, and executing an impactful, fun-filled week of events for the final year students with emphasis on Leadership and Goal setting, directly impacting nearly 1000 students.

- **Faculty of Engineering Awards & Dinner Night 2019 (Phantom of the Opera)**

I worked with the planning team to outline the program of events and the various activities involved

Workshops / Conference Attended

- Chevron Nigeria Oil and Gas Exploration workshop which held at the University of Lagos August, 2018.
- VMWARE workshop training on cloud computing, 21st – 25th September, 2019.

Skills / Interests

- Fast learner and independent with strong leadership and critical thinking skills.
- Problem-solving and project management skills.
- Communication, presentation, and teamwork skills.
- Proficient in Microsoft Office packages, with basic knowledge in technical software like AutoCAD, ArcMap, ENVI, MATLAB and HYPACK.
- Mapping and 3D Modelling with ArcGIS and ArcScene.

Referees

Available on request.
